

WHEN IT COMES TO RUST AND CORROSION PREVENTION... WE'VE GOT YOU COVERED!

MOST PARTS OF YOUR TRACTOR TRAILERS CAN RUST OR CORRODE. LET TECTYL® PRODUCTS PROTECT YOU!

TECTYL's Complete Line of Products Meets Every Need!

Normal wear and weather can affect profits by making your tractor trailers vulnerable to the ravages of rust and corrosion. TECTYL® offers the most complete line of rust proofing and corrosion prevention products for the transportation industry. You can be sure TECTYL has a product that is just right for your needs, whether OEM or aftermarket. TECTYL products bond to the metal parts of your trailers to create a physical and chemical barrier that repels moisture, salt spray and other harsh corrosives. When you ride with TECTYL protection, you can ride with confidence.

TECTYL Products Offer The Features You Want!

- Spray on application makes TECTYL products easy to use.
- One coat gives you lasting protection and requires less maintenance, expense, and time.

- Fast drying and curing means your equipment has immediate protection. You are ready to roll.
- TECTYL low VOC (Volatile Organic Content) waterborne products offer excellent ASTM ratings.
- Lower emissions from TECTYL's low VOC products help protect the environment.
